HYDROGEN THERAPY

**The Best Antioxidant known so far
No currently available antioxidants can compare with the properties of Molecular Hydrogen (H₂) as the most recent and effective molecule to combat oxidative stress. Not only is it effective, H₂ also has zero toxicity and no adverse side effects. Hydrogen is odourless, colourless, and tasteless; and thus inhalation therapy is non-intrusive, is imperceptible to immediate senses, and is calming during a session. Molecular hydrogen has a well known ability to reach the nucleus and the mitochondria, producing unique cell- modulating effects which affect healthy gene expressions, cell metabolism and cell signalling in a very positive way, with anti- obesity, anti-inflammatory, anti-allergy anti-aging and performance enhancement effects. Molecular Hydrogen is a powerful anti bacterial. anti viral, anti fungal and anti parasitic agent and also a strong immune modulator.**
