Understanding EBOO Therapy

EBOO stands for Extra Corporeal Blood Oxygen Ozonation. It is an advanced medical procedure where your blood is gently taken out, mixed with medical ozone in a safe, closed non plastic system, and returned to your body. Ozone is a special form of oxygen with powerful health benefits. It can increase oxygen delivery to tissues, support your immune system, reduce inflammation, and help your body heal more effectively.

EBOO has been used in a wide range of health conditions, including,

- Diabetes
- Hypertension
- Dyslipidemia
- Thyroid issues
- Irritable bowel syndrome, etc

Viral infections such as herpes and HIV show results which anti retrovirals cannot ever achieve

IAOS system does not use renal dialysis filters or dialysis systems.

This system uses 100% ozone compatible assembly, Borosilicate flint free glass bottles, stainless steel ozone diffusers, ozone compatible pipings and tubings, and is an extremely uncomplicated system, easy to master and use. The disposable diffusion system is affordably priced and comes sterile. The set contains one sterile borosilicate flask with silicone stoppers, and two sterile infusion tube assemblies, priced affordably at Rs 6500 or 55\$ USD per set.

Patient's report:

- Increased energy and stamina
 - Better recovery from infections and inflammation
 - Relief from chronic fatigue
- Improved mental clarity and mood
- Better control of chronic inflammatory and autoimmune symptoms

IAOS system comes with a detailed online course with lectures and videos, in 40 modules, which teach you Ozone and Hydrogen therapies step by step all the way. This course worth USD 1200\$ is included with the purchase of IAOS non filter Glass bottle EB00 system
